Choosing a retrofit product just got a lot easier. We have created the above chart to help you choose the LED retrofit product that will best fit your project.

You will notice that the "✓" indicates a highly recommended LED retrofit product for that application. In some instances, you will have two or more options. The options are based on the size of the fixture being used, as well as your intended lighting needs. One of our lighting specialists will assist you in making the best decision for your retrofit project.

Due to rapid advancements in LED technology, these specifications are subject to change without notice. Please visit us online at ZLed-Lighting.com for our full product line and ordering details.
